### **DETAILED ACTION**

This is the fifth office action for U.S. Application 10/772,909 for a Method and Apparatus for Securing Cables and the Like filed on February 5, 2004. Claims 43-51 are pending.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Daley on July 31, 2006.

The application has been amended as follows: Claim 43, after the word "tail" in the last line, the following language has been added, - - whereby the self-bias of said tail causes the tail to press against ends of an opening in the mounting panel when the cable tie is attached to said mounting panel - -.

### ***Allowable Subject Matter***

Claims 43-51 are allowed. The following is an examiner's statement of reasons for allowance: The prior art does not disclose a method for assembling conductors with a mounting panel, comprising the steps of: providing a cable tie with a head and a tail extending from the head to a tail free end, the tail having a self bias to a planar condition; attaching a securement member to the tail using the self-bias of the tail to

render the securement member portable with the cable tie; attaching the securement member and the cable tie to the mounting panel using the self-bias of the tail; whereby the self-bias of the tail causes the tail to press against ends of an opening in the mounting panel when the cable tie is attached to the mounting panel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
